ForeHead

Line: Microneedling | Presentation: Sterile professional microneedling ampoules

ForeHead Ampoules are specifically formulated to reduce horizontal forehead wrinkles and vertical frown lines. This innovative product is the first of its kind on the market, designed to help people of all ages, from young adults to older individuals,...

KEY ACTIVE INGREDIENTS

- Active Ingredients:
- Argireline(R) Amplified Peptide : Works similarly to Botox by helping to reduce muscle contractions in the forehead area. By decreasing muscle activity, it minimizes the formation of wrinkles and expression lines, contributing to a smoother appearance.
- Argirelox(TM) Peptide : Known for its ability to reduce muscle contractions, this peptide helps visibly diminish forehead wrinkles.
- Hyaluronic Acid : A substance that retains large amounts of water, keeping the skin hydrated and plump. Over time, hyaluronic acid levels decrease, leading to wrinkle formation, making it an essential addition to your skincare routine.

COSMETIC / CLINICAL INDICATIONS

- ForeHead Ampoules
- ForeHead Ampoules are specifically formulated to reduce horizontal forehead wrinkles and vertical frown lines. This innovative product is the first of its kind on the market, designed to help people of all ages, from young adults to older individuals, achieve a smoother and more rejuvenated appearance.
- How Does It Work?
- The formula in ForeHead Ampoules works by reducing muscle contractions and promoting relaxation in the forehead area. It uses natural peptides produced following the principles of Green Chemistry, ensuring an environmentally-friendly manufacturing process that avoids harmful chemicals.
