ReduCelite

Line: Professional Cosmetics | Presentation: Professional cabin dermocosmetic format

Active gel with hot effect for the body. Helps reduce localized fat and cellulite 24 hours a day.

KEY ACTIVE INGREDIENTS

- Active gel with hot effect for the body. Helps reduce localized fat and cellulite 24 hours a day.
- Caffeine - a powerful antioxidant that breaks down fat that's deep within the skin layers and improves microcirculation in the skin.
- Active gel with hot effect for the body. Helps reduce localized fat and cellulite 24 hours a day.
- Caffeine - a powerful antioxidant that breaks down fat that's deep within the skin layers and improves microcirculation in the skin.

COSMETIC / CLINICAL INDICATIONS

- ReduCelite
- The product is suitable for use before training as its heating action combined with exercise speeds up the breakdown of cellulite and helps its elimination.
- Provislim (TM) - activates basal lipolysis (degradation of triglycerides) at rest and promotes adrenaline-induced lipolysis, during exercise or stress situations. It also inhibits lipogenesis (formation of triglycerides) after food intake and inhibits adipogenesis (differentiation into mature adipocytes) as a global preventive effect.
- Carnitine - plays an essential role in the transformation of fatty acids into metabolic energy.
