PUBLIC TECHNICAL DATASHEET

SKU: PRS-3066 | v1.0.0 | EN

Etternity Dermal S.L. | Madrid, Spain

Revitalesse

Line: Meso Cocktail | Presentation: Sterile professional mesotherapy vials

Synergetic anti-wrinkles and skin aging formula. Improves skin softness, promotes elasticity of epidermal and dermal tissues and reduce cell oxidation by neutralizing free radicals.

KEY ACTIVE INGREDIENTS

- HYALURONIC ACID 1.5%: Moisturizes the skin, corrects and reduces deep wrinkles, activates the collagen synthesis and fibroblast function.
- X-DNA 1%: Reconstructs the connective tissue of the dermis especially the collagen protein
- MANNITOL 0.3%: Substance with large osmotic capacity, slowing down the degradation of hyaluronic acid.
- PANTHENOL 1% : Penetrates deeply into the layers of skin; preserves the natural moisture there, helps to maintain healthy skin and stabilize its metabolism.

COSMETIC / CLINICAL INDICATIONS

- Revitalesse for face
- Synergetic anti-wrinkles and skin aging formula. Improves skin softness, promotes elasticity of epidermal and dermal tissues and reduce cell oxidation by neutralizing free radicals.
- DMAE 1%: Reaffirms the skin tissues, counteracting sagging, stabilizing the cell membrane and contributing to elasticity of skin tissues.
- ORGANIC SILICON 1%: It is essential for setting up the structure of the dermis, unifies glycosaminoglycans with polyuronic creating bridges between them; determines the structural conformation of connective tissue.
