ScruBright

Line: Professional Cosmetics | Presentation: Professional cabin dermocosmetic format

Excellent double action formulation, it contains:

KEY ACTIVE INGREDIENTS

- ARABIAN COTTON(TM) : is an active enriched in defensive plant molecules that protect and repair cell structures against sun damage. It provides photoprotection against UV, IR, and VIS radiation, and fights against photo-aging with a broad-spectrum antioxidant effect.
- VITAMIN E: Antioxidant resulting in retardation of skin aging. It fights free radicals that are considered responsible for the deterioration of skin tissue and the early appearance of wrinkles.
- VITAMIN C: Antioxidant action : vitamin C acts by capturing and deactivating oxidants and free radicals in the skin, increasing skin elasticity and promoting collagen synthesis. Pigment: suppression of skin pigmentation process and degradation of melanin.

COSMETIC / CLINICAL INDICATIONS

- Excellent double action formulation, it contains:
- Micro granules for mechanical Exfoliating; that eliminate gently dead cells and impurities from the skin. Enzymatic peeling cocktail with Pineapple and Papaya extract that smoothes, tones, and illuminates the skin. It accelerates depigmentation, promotes the skin renewal process, and increases skin luminosity through the combined action of the mechanical exfoliation (dragging the dead skin with the particles) and the effect of the enzymatic cocktail that promotes skin peeling. Suitable for all skin types, seborrheic /acne, and even the most sensitive skin.
- JOJOBA SCRUBEADS(TM) : help protect skin from microscopic scratches that can be caused by other natural exfoliants. Jojoba scrubs provide gentle yet effective exfoliation benefits, enhancing a cleanser's performance in removing dead skin cells and dirt particles while improving skin radiance
- ENZYMATIC PEELING: Effect of the tropical fruit (pineapple and papaya extracts). Helps to clean the surface of the skin, remove the dead cells and stimulate the regeneration of the dermis. The combination of papain enzymes (extracted from papaya), and bromelain (found in pineapple) gives the product high exfoliation performance, through the combined actions of proteolytic enzymes. The presence of maintaining the skin well hydrated.
