EU REGISTERED MEDICAL DEVICE (CE MARKED) | CERTIFICATE OF FREE SALE (CFS) AVAILABLE

Seductiva Volume

Line: Dermal Fillers | Presentation: Sterile pre-filled syringe | EU Medical Device (CE)

A new generation of Cross-linked Hyaluronic Acid fillers. Pressensa Seductiva Volume is sterile, highly tolerated, viscoelastic filler made with cross-linked hyaluronic acid, ideal for subcutaneous applications.

KEY ACTIVE INGREDIENTS

- A new generation of Cross-linked Hyaluronic Acid fillers. Pressensa Seductiva Volume is sterile, highly tolerated, viscoelastic filler made with cross-linked hyaluronic acid, ideal for subcutaneous applications.
- Monophasic Cross-linked Hyaluronic Acid easy to handle Pressensa Seductiva Volume is a CE 0373 injectable, apyrogenic, resorbable medical device made with cross-linked hyaluronic acid created from non-animal sourced bacterial biofermentation.
- Nueva generación de rellenos de Àcido Hialurónico Reticulados
- Es un relleno viscoelástico estéril, altamente tolerado, hecho con ácido hialurónico reticulado, ideal para aplicaciones subcutáneas.

COSMETIC / CLINICAL INDICATIONS

- It is a colourless monophasic gel contained in a disposable prefilled, ergonomic syringe with a Luer Lock adapter that makes it easy to handle.
- Minimise any hypersensitivity reaction Pressensa Seductiva Volume is manufactured under the strict controls of the certificates ISO 13485 and ISO 9001. Electronic verifications carried out throughout the entire filler production and packaging process to ensure quality, purity, and safety.
- The extremely low concentration of nucleic acids and protein, and the bacterial endotoxin rate < 0.5 EU/ml (much lower than the limit established by the European Pharmacopoeia for injectable pro-ducts) minimise any hypersensitivity reaction.
- The result is very natural and immediately visible. Pressensa Seductiva Volume has an immediate lifting eff ect, thanks to its intrinsic viscoelastic and hydrophilic properties, which help recreate the desired volume. 25mg/ml concentration H.A. allows reducing any type of deep wrinkles, reshaping the face contour and lips, and hydrating the skin in depth.

REGULATORY & QUALITY GOVERNANCE

Status: APPROVED (2026-11-26) | Reviewer: Etternity Dermal, S.L. · Technical Direction
Regulatory Classification: EU Registered Medical Device (CE) - Certificate of Free Sale (CFS) | Audience: Professional Clinic & Cabin
Claims / Regulatory Standard: EU Registered Medical Device (CE / MDR) · Certificate of Free Sale (CFS) | Markets: EU, MENA, LATAM, CIS
RESTRICTED DOCUMENTATION NOTICE: Full clinical injection/needling protocols, SDS and regulatory dossiers are excluded from public builds and provided strictly via controlled access.
